

# Wiha Bolt Cutters

## Z 27 0 01 Bolt Cutters, Classic.

- Jaw style:** Bolted jaws, exchangeable.
- Finish:** Robust and durable - induction hardened jaws to about 60 HRC.
- Convenient:** Adjustable and replaceable via the eccentric bolts
- Ergonomic:** High precision - tubular steel handles with robust and non-slip single-component grips.
- Strong** - less effort is required in cutting the material because of the optimal geometry.
- Material:** Hard as steel - jaws made of high quality chrome molybdenum steel, hardened and tempered.
- Application:** For cutting most cylindrical workpieces such as pins, wires, bolts and rivets with a max. hardness of 40 HRC. Particularly suitable in the building trade for cutting steel reinforcement mesh and steel reinforcing bars.

Order No.	mm		40 HRC ●	g	mm
39374	450	18	6	1600	1
39376	600	24	8	2500	1
39378	750	30	9	3680	1
39380	900	36	11	5320	1

## Z 27 0 01K Replacement Jaws for Bolt Cutters, Classic.

Order No.		g	mm
39375	for 450 mm	660	1
39377	for 600 mm	1020	1
39379	for 750 mm	1160	1
39381	for 900 mm	1820	1

**Safety note:**  
When working with bolt cutters – beware of wire ends flying away. Please wear safety glasses.
