

**NEW!**

**Thread cutting with cordless screwdrivers**

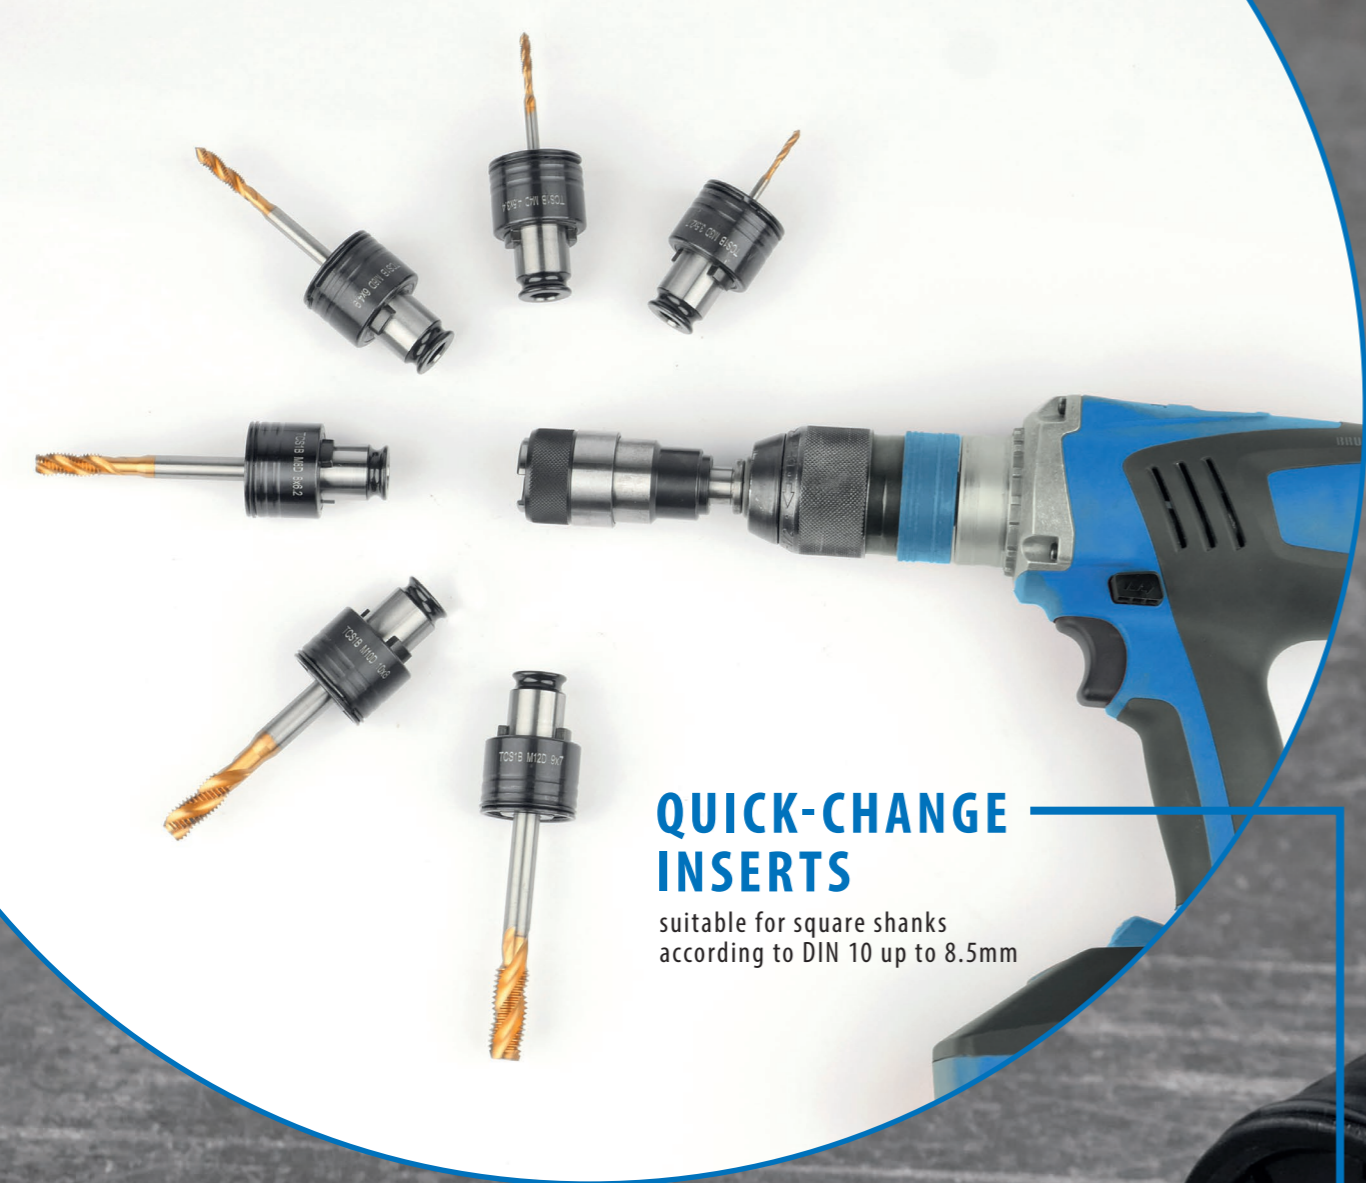

Dear customers,  
This issue is all about the GSR QC adapter.

It is the first product of our new GSR eTapping series. The tool holder with quick-change inserts for DIN standardised short machine, hand and machine taps allows cutting of internal threads with cordless screwdrivers. With just one click you can change the machine taps. We also developed a workshop stand for the entire set. Further information can be found on the following pages.

The GSR-Team

## QUICK-CHANGE INSERTS

suitable for square shanks according to DIN 10 up to 8.5mm

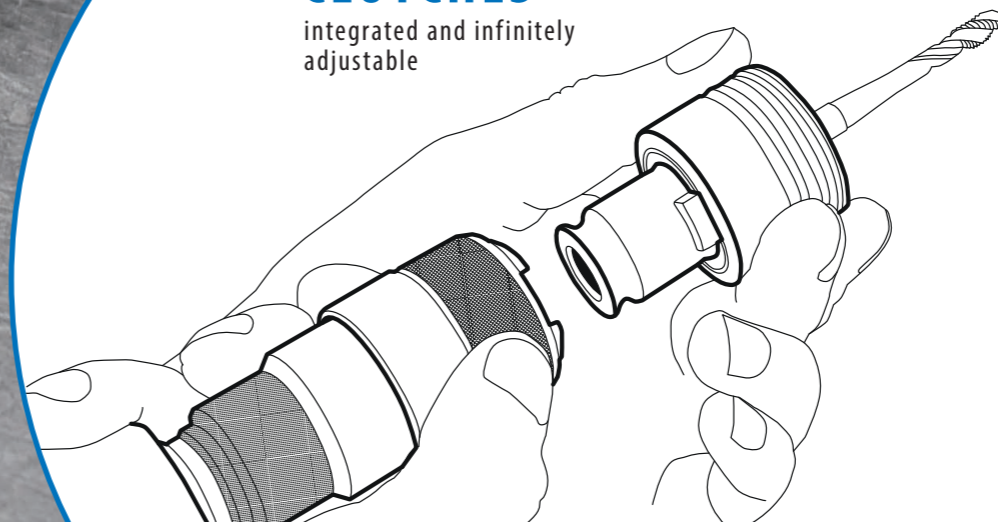

## QC ADAPTER

9mm hex shank

## SAFETY SLIP CLUTCHES

integrated and infinitely adjustable

ALSO AVAILABLE  
IN ABS BOXES!

**TIP:**  
We recommend  
the use of GSR Silver  
machine taps for  
use with cordless  
screwdrivers.
